My career started in a printing company at the age of 17 where I began developing my skills as a graphic designer. I have successfully made a transition into web and interactive media freelancing for various companies.

I am currently enrolled at the Art Institute of California Inland Empire campus pursuing my Bachelor's in Science degree in **Web and Interactive Media Design**.

My experience with computer programs ranges from the well-known Adobe suites to Apple's Final Cut Studio. I am well versed in the use of Photoshop, Illustrator, Indesign, Quark Xpress, Freehand and other graphic and web design programs such as Dreamweaver and Flash.

I have developed various websites utilizing these and other programs in html and CSS. I have experience in color correcting and image manipulation.

A brief listing of companies I have worked with:

ADVANCE BUSINESS GRAPHICS — Miraloma, Ca, March 2000 - July 2008

PRIMARY COLOR — Culver City, Ca, May 1999 - March 2000

CRESTEC — Torrance, Ca, May 1997 - May 1999

AMERICAN COLOR — Santa Ana, Ca, January, 1996 - May, 1997

INLAND LITHO — Anaheim, Ca, March, 1994 - December, 1995
